

# Brian Sanchez

FULL-STACK WEB DEVELOPER

## About me

I am a student of Information and Communication Technology Engineering. Throughout this career, I have realized that programming is by far the area of study that I am most passionate about and interested in.

## Experience

### Web developer

DuoSeptem. | Oct 2022 - Currently

Experience in creating, consuming, and modifying microservices for scalable websites, with a focus on ERP and e-commerce projects. Using Laravel, PHP, and MySQL on the backend, and Angular, TypeScript, SCSS on the frontend. In addition, utilizing tools such as GitHub, Postman, and Azure DevOps for development. I stand out for providing effective solutions and contributing to the success of projects in dynamic environments

## Education
