Brian Sanchez
FULL-STACK WEB DEVELOPER

About me

I am a student of Information and Communication Technology Engineering. Throughout this career, I have realized that programming is by far the area of study that I am most passionate about and interested in.

Experience

Full-Stack Web Developer
DuoSeptem. | Oct 2022 - Currently

Experience in creating, consuming, and modifying microservices for scalable websites, with a focus on ERP and e-commerce projects. Using Laravel, PHP, and MySQL on the backend, and Angular, TypeScript, SCSS on the frontend. In addition, utilizing tools such as GitHub, Postman, and Azure DevOps for development.

Front-end Web Developer
Dochmart. | Mar 2024 - Currently

Experiencia en creación y modificación de interfaces gráficas usando Angular, TypeScript y SCSS en el frontend. Diseño y desarrollo de componentes reutilizables y optimización del rendimiento. Integración y consumo de microservicios mediante APIs RESTful para asegurar una comunicación eficiente entre el frontend y el backend.

Education

Information and communication technology engineering
Instituto Tecnológico de Culiacán │January 2019 - July 2024
